Skill Atom Storyboard

Title

Core idea

Elements

- Motivation** What motivation fuels the user? How is that motivation satisfied?
- Goal** What goals does the user pursue? How are they suggested to the user?
- Action & object** What does the user do with what to achieve that goal?
- Challenge** What's the learnable challenge inherent in the activity?
- Rules** What are rules & constraints?
- Feedback Immediate:** How does the user learn about the success of her action? *Progress:* How does the user learn about her progress toward her motive over time?
